Ostinato Circle Awards

Annually, beginning with the June 2014 NAFME National Assembly Meeting, Give a Note Foundation will make two Ostinato Awards for the following:

- State with the greatest percentage of members giving, AND
- State with the greatest dollar amount of overall donations

The winning states will each receive 10 scholarships for the NAFME National In-Service Conference or NAFME Music Research and Teacher Education National Conference (in even years). These scholarships will include registration and two hotel nights (at the conference hotel). States may award the scholarships as they wish.

Give a Note Foundation was created by the leaders of NAfME to keep music in the life of every child. Through strategic partnerships and national campaigns, Give a Note Foundation is helping to raise awareness and provide support for music education programs across the nation.

Since its creation in 2011, Give a Note has provided more than \$1,000,000 in grants and influenced the lives of more than 30,000 students.

Music education is a powerful means of preparing creative, collaborative, and productive citizens...exactly what our rapidly changing world needs! Great teachers and committed community partners are the key to strong, sustainable school music programs.

Help us lead the way to a bright future!
